Description:

Why do countries have different institutions and forms of government? Why do some social revolutions succeed and endure while others fail? Why are some societies subjected to terrorism and not others? An engaging and accessible introduction to the subject, *Comparative Politics: Integrating Theories, Methods, and Cases*, Second Edition, gives students the methodological tools

they need to answer the "big questions" in the field. The authors introduce methods early in the text and integrate them throughout in order to help students develop a systematic way of thinking about comparative politics.

FEATURES

* **A unique structure offers the best of thematic and country-by-country approaches.** Sixteen succinct thematic chapters--organized around the "big questions" in the field--are followed by a separate section at the end of the book offering full-length profiles and case studies for twelve countries

* **Each chapter integrates several standalone country case studies in "Case in Context" boxes;** these features tie into the narrative, pose questions, and point students to the full case discussions in the country profiles

* **"Thinking Comparatively" sections** at the end of each chapter introduce new methodological tools and help students apply the theories and concepts covered in that chapter

* **"Thinking It Through" questions** help students test their ability to apply comparative politics theories to cases

* **"Research Prompts"** in every case-study section help students develop comparative projects and papers
